

CentiCore™ HD Series Fanout Cassettes

Overview

Fibertronics Inc. CentiCore™ HD Series Fanout Cassettes are engineered to deliver high-performance fiber termination and breakout solutions in ultra-dense environments. These modular cassettes feature MTP®/MPO rear connectivity and LC front interfaces, providing a seamless transition from trunk cables to individual fiber ports.

The plug-and-play design ensures quick installation, simplified cable management, and easy reconfiguration, making them ideal for dynamic network environments. All cassettes are fully compatible with CentiCore™ fiber housings, ensuring a reliable and integrated solution.

Key Features

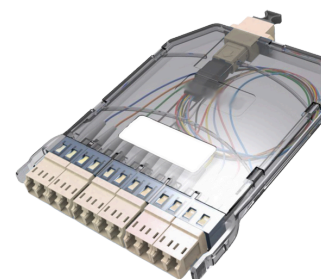

- Slim Cassette Design for High-Density Applications
- Rear MTP®/MPO Interface
- Pre-terminated Fanout Assembly
- Multiple Fiber Mode Options
- Low Insertion and Return Loss
- Customizable

Typical Applications

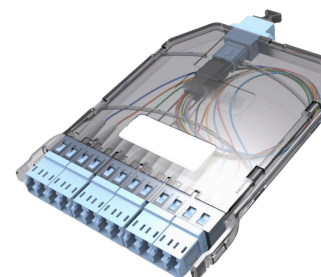

- Hyperscale Data Centers and Cloud Providers
- Telecommunications Central Offices and Metro Fiber Hubs
- Colocation (Multi-Tenant) Data Centers
- Financial Trading Networks
- Internet Exchange Points (IXPs) and Carrier-Neutral Facilities

Technical Specifications

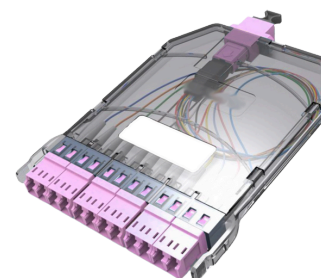

Material	High-Durability Polycarbonate
Dimensions	~ 5" x 3.75" x 0.5" (L x W x H)
Mounting Compatibility	UltraHD™ Patch Panels
RoHS Compliant	Yes

CentiCore™ HD Series Fanout Cassettes

Standard Configurations

Connector Type (Front)	Connector Finish	Fiber Count	MPO Gender	Fiber Mode
LC	UPC/APC	12	Male/Female	OM1, OM3, OM4, OS2

- All models are fully compatible with UltraHD™ Series Patch Panels (1U, 2U, 4U)
- Default polarity is Straight Polarity (Method A). Other polarity available upon request
- Cassettes ship with dust caps

Ordering Information

To order, specify:

Connector Type:	MPO Gender:	Connector Finish:	Fiber Count:	Fiber Mode:	Polarity:
• LC	• Male • Female	• UPC • APC	• 12	• OM1 • OM3 • OM4 • OS2	• Straight Pinout • Universal Pinout • Inverted Universal • QSFP Pinout • Custom

Custom Options

Fibertronics Inc. offers a wide range of **custom MPO/MTP® cassette configurations** to meet your exact specifications. These include:

- Custom fiber modes, connector types, and fiber counts
- MPO-to-MPO pass-through cassettes and custom pinout mapping boxes
- Unique connector mixes or fiber breakout layouts
- Private labeling and special color coding for identification

To request a custom solution, contact our sales team at: sales@fibertronics.com
