

Opti-Lure™ Dust Cap and Pull-Eye Solution

Overview

At Fibertronics Inc., we believe innovation should serve practicality. That's why we developed the Opti-Lure™—a compact, all-in-one dust cap and pull-eye solution designed specifically for MPO/MTP® fiber optic connectors.

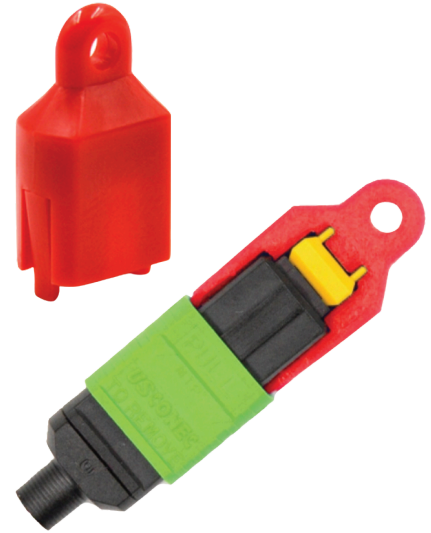

The Opti-Lure™ streamlines installation by enabling fast, clean cable pulls through conduit while protecting the connector end from debris and damage. It minimizes installation risks, safeguards your connectors from the start, and simplifies field logistics.

Features

- Dependable all-in-one design
- Fits both male and female connectors
- Made from polycarbonate plastic

Applications

- Data Centers
- Telecom Installations
- High-Density Fiber Deployments

Technical Specifications

Part Number	10345P
Dimensions	7.60mm x 12.36mm x 23.25mm
Pull-eye Size	Φ 3mm
Material	Polycarbonate Plastic
Max Pulling Force	• US Conec MTP® – Up to 15 lb (6.8 kg) • Generic MPO – Up to 9 lb (4.0 kg)

Note: Total allowable pulling force depends on the specific cable construction. Always consult your cable spec sheet.
