FIBERTRONICS

6 Fiber Wall Mount Termination Box

Splice Tray Included – 7 Ports at 9mm (x1) and 3mm (x6) – Accepts SC Simplex or LC Duplex Adapters (x6)

Overview

Fibertronics Inc. offers high-quality fiber optic termination boxes designed for safe and efficient termination, splicing, and distribution of fiber optic cables. These units provide secure housing for fiber splices and pigtails, protecting connections while keeping cables neatly organized.

Built with impact-resistant materials and IP-rated enclosures, they are suitable for both indoor and outdoor use, withstanding dust, moisture, and corrosion. Internal components include fixed fiber trays, support frames, and fixtures to maintain proper cable management. Lock-ready housings add an extra layer of security where needed.

Ideal for FTTH deployments, telecommunications infrastructure, and network equipment rooms, our termination boxes are also widely used in data, CATV, and agricultural telecom applications.

Key Features

- High Capacity – Supports up to 96 fibers with 4 included splice trays
- Secure, Wall-Mount Design – Compact enclosure ideal for network rooms or utility areas
- Durable & Weather-Resistant – IP-rated housing with dust, moisture, and corrosion protection
- Organized Cable Management – Includes support frame and fixed trays for neat, secure splicing

Typical Applications

- FTTH (Fiber to the Home) Deployments
- Telecommunications and Central Office Networks
- Data and Image Transmission Systems
- CATV and Broadband Distribution

Technical Specifications

*Adapters not included

Ports	7 Ports
Adapter Capacity	6 SC Adapters / 12 LC Adapters
Splice Trays	1 Tray
Splice Capacity	6 Splices
Cable Diameter	1x Ø9mm max. / 6x Ø3mm max.
Material	ABS and Polycarbonate
Dimensions	212mm x 144mm x 42mm
Depth	1.57"
